## Mix Dye with Hot Water

140°F (simmer)

180°F (below a boil)

## Test Color

Dip fabric scrap or paper towel into dye bath. If color is too dark, add more water. If too light, add more dye.

## Dye Until You Get the Desired Color

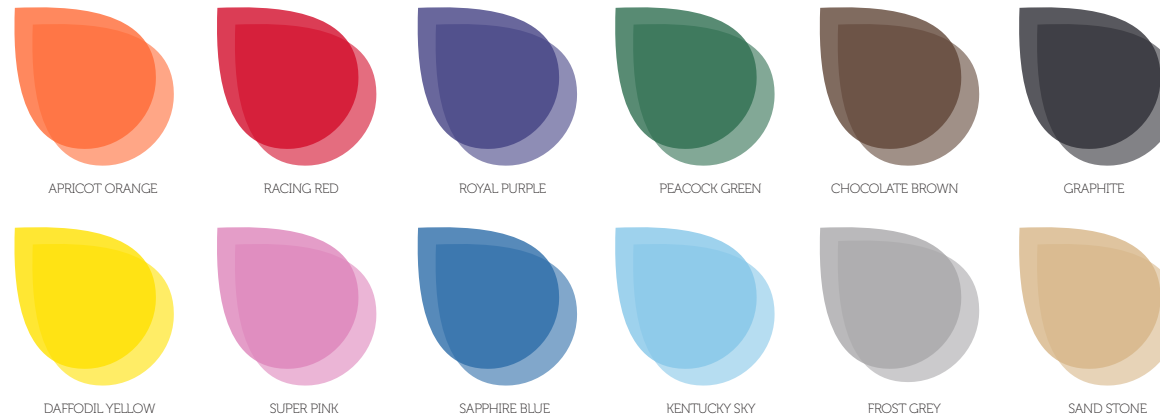

Color looks darker when wet! Dark colors and 100% polyester need 30-60 minutes.

# Rit DyeMore® Colors

Rit®'s synthetic dye.

Works on: polyester, polyester/cotton blends, nylon, acrylic, acetate and some plastics.

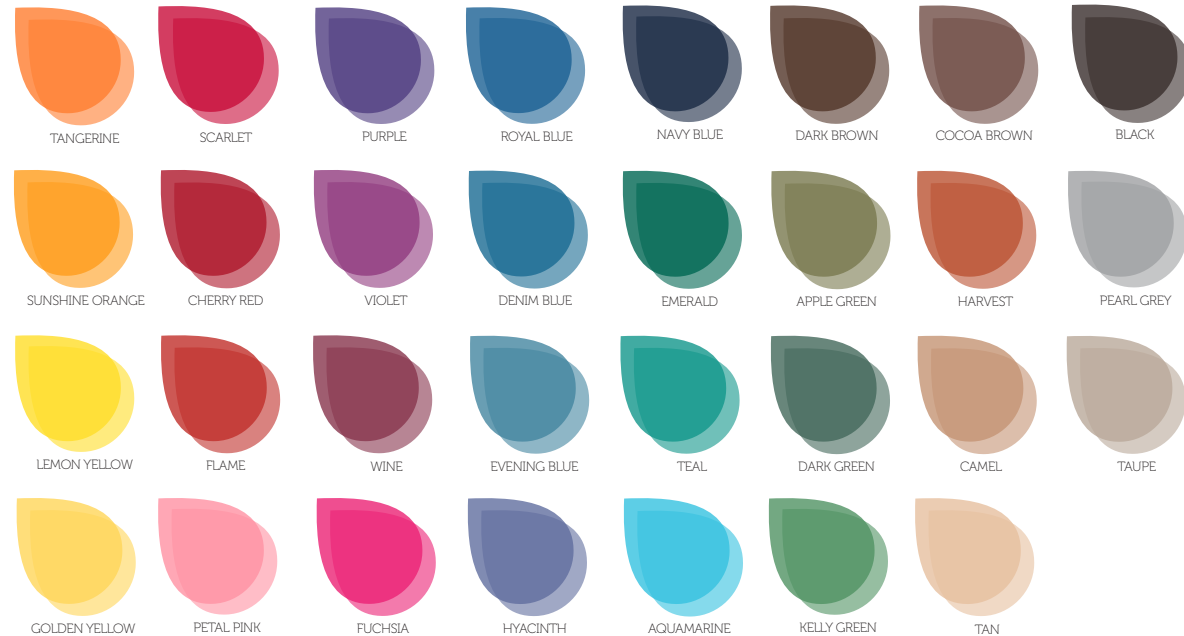

Getting the right color is all about the dye to water ratio. Mix in lots of dye to get a darker shade than the one on the bottle, or use a little dye to get a lighter one. You can also mix dye colors together to create hundreds of new colors!

Customize your color with one of 500+ color formulas at [RitStudio.com](http://RitStudio.com).

# Rit® Dye Colors

Rit®'s original dye. Works on: cotton, linen, wool, silk, rayon and ramie.
